

DRIC
DEFKALION

DISASTER RESILIENCE INNOVATION CLUSTER

An Interdisciplinary Partnership of Greek SMEs, Industries, Research Institutes & Universities for the Protection and Safety against Environmental Risks

The Cluster

DRIC Defkalion brings together businesses, scientific research organisations, and technology companies focused on developing products, systems, and services for the management and response to natural disasters and emergencies in the field of civil protection. The cluster aims to join forces, enhance know-how, and put into practice experience to advance knowledge in the disaster risk management area, introduce new products & services to the market, and intermediate research results, such as product prototypes and patents.

Activities

Working Groups

- Atmospheric Modelling, Meteorological and Ocean Forecasts and Climate Change Scenarios
- Earth Observation, GIS Applications, and Spatial Analysis
- Disasters' impact assessment and development of mitigation solutions
